Dues: Annual dues for membership in the San Diego Association of Geologists should be paid this month, either at the monthly meeting or by mail to Ken Sherrod at the address on the attached membership form. Dues are \$5.50 for regular members and \$1.50 for student members. The annual dues are virtually the only current source of income for the SDAG and the funds are needed to meet monthly newsletter preparation and mailing costs, and to allow us to pick up the dinner tab for our guest speaker each meeting. We are operating at a slight deficit, and prompt remittance of your dues will be appreciated.

New Consulting Firm: Cliff La Monte, formerly of W.S. Krooskos and Associates and the Trans Alaska Pipeline, has recently established the firm of C.W. La Monte and Associates - Soils and Foundation Engineering & Engineering Geology. Cliff is working in partnership with Les Reed, also formerly of W.S. Krooskos and Associates and the Trans Alaska Pipeline. Together they are performing the usual services provided by soils and foundation engineering companies. In addition, they offer ground-water exploration and general civil engineering services, and do a helluva job on any permafrost problems you might encounter.
