SDAG MEETING ANNOUNCEMENT

WEDNESDAY, August 20, 2008

CITY OF SAN DIEGO STORMWATER HYDROMODIFICATION REGULATIONS

Presented by

Sumer Hasenin, Senior Civil Engineer, City of San Diego

Where: Catalina Room (southern end of MVCC) SEE MAP
Marina Village Conference Center
1936 Quivira Way, San Diego, CA 92109

When: 5:30 pm – Social Hour
6:30 pm – Dinner
7:00 pm – Program

Directions: FROM INTERSTATE 5: Take the SEA WORLD DRIVE exit. From SEA WORLD DRIVE, take WEST MISSION BAY DRIVE on your right. When you see the large green sign that says QUIVIRA ROAD, get in the farthest left of the two left turn lanes. Turn left, go one very short block and turn left again. Drive about one half mile and MARINA VILLAGE will be on your right.

FROM INTERSTATE 8: Take the WEST MISSION BAY DRIVE exit to the right. You will be on INGRAHAM STREET for a short distance from which you will take the next exit marked WEST MISSION BAY DRIVE on your right. When you see the large green sign that says QUIVIRA ROAD, get in the farthest left of the two left turn lanes. Turn left, go one very short block and turn left again. Drive about one half mile and MARINA VILLAGE will be on your right.

Dinner:

Hawaiian Dinner
Cost: $25, current members, $30.00, non members; STUDENTS: $15, members, $20 non members; all late registrants $30.00

Reservations: Make your reservation online at www.sandiegogeologists.org no later than noon, Tuesday, August 18th; our apologies for getting this newsletter out a bit late.
2008 SDAG MEETING SCHEDULE - Mark your Calendars!
Meetings are usually on the 3rd Wednesday of the month but may change to accommodate speaker and meeting place schedules. Check here for updates!

2008 EXECUTIVE COMMITTEE
President - Sarah Gray; University of San Diego. Ph: (619) 260-4098; fax: (619) 260-6874; sgray@sandiego.edu
Vice President - Scott Snyder; Ninyo & Moore. Ph: (858) 576-1000; sandag2006@prodigy.net
Secretary – Bryan Miller-Hicks; geobry@aol.com; bryanmillerhicks@gmail.com
Treasurer - Chuck Houser; PetraGeotechnical Inc. Ph: (858) 485-5530; chouser@petra-inc.com
Publications - Lowell Lindsay; Sunbelt Publications. Ph: (619) 258-4911 x111; fax: (619) 258-4916; llindsay@sunbelpub.com
Webmaster – Carolyn Glockhoff; Caro-Lion Enterprises. Ph: (858) 549-3396; carolyn@caro-lion.com

SPEAKER BIO
Sumer Hasenin is a Senior Civil Engineer with The City of San Diego, Storm Water Department. She has a BS in Civil Engineering, 1995 and a master of science in Water Resources and Environmental Studies both from San Diego State University, 1998. She heads the storm water Development and construction regulations section. Her section is responsible for implementing the development regulations through coordination with other City Departments, mainly Development Services and the Engineering Departments.

ABSTRACT
CITY OF SAN DIEGO STORMWATER HYDROMODIFICATION REGULATIONS
The Storm Water Municipal Permit issued by the Regional Water Quality Control Board in January 2007 introduced new hydromodification requirements for development projects. The board required the Co-permitees to develop hydromodification criteria by January 2009. The presentation will give an overview of the hydromodification Standards and an update on the co-permitees effort in developing these standards.
PRESIDENTS CORNER, AUGUST 2008

Join us WEDNESDAY, August 20th at Marina Village for a special presentation by City of San Diego Senior Civil Engineer, Sumer Hasenin. The social hour will start at 5:30 and the presentation at 7:00. Stay tuned and mark your calendars for the 2008 SDAG Annual Field Trip to the Coachella Valley on the weekend of October 18th & 19th. Keep those ideas for One Stop Wonders coming and have a great rest of the summer.

--Sarah

ANNOUNCEMENTS

SDAG ONE STOP WONDER, JULY 19, 2008

On Saturday, July 19, 2008, eight SDAG members joined a team of paleontologists and volunteers from the San Diego Natural History Museum (SDNHM) on a short-notice salvage operation for a fossil assemblage within the San Diego Formation “Kanakoff beds” in Border Field State Park.

The outcrop, one of a very few in the San Diego Formation with well-preserved fossil material, is in the path of construction of the proposed second border fence. As Scott Rugh, Invertebrate Collections Manager for SDNHM, described it: “these invaluable marine invertebrate and vertebrate fossils will further document the species occurring in the fossil beds of the area collected by Kanakoff in the 1970’s at the international border at Borderfield State Park.

The fossils found around the international border are marine continental shelf invertebrates and vertebrates estimated to be about 3.2 million years old. The fossils found in the sandstone bluffs at Borderfield State Park are dominated by many species of marine fossils, especially mollusks. In addition, there are remains of brachiopods, echinoderms, barnacles, and crustaceans. There are also otoliths (fish ear bones), and rare sharks teeth. Led by Dr. Tom Deméré, Scott Rugh and other SDNHM staff members, the SDAG group assisted in the recognition of three distinct fossiliferous beds exposed in the outcrop. In all, a great number of individual fossils and more than 12 cubic feet of fossil-bearing sand and silt were recovered for later preparation and study.

Not bad for a last-minute One Stop Wonder! Thanks to SDAG members Carole Ziegler, Doug Peeler, Mary Klinger, George Kennedy, Steve Jacobs, Kimbrie Gobbi and Greg Cranham for enthusiastic participation in this emergency salvage operation! Special thanks to SDAG past president Lowell Lindsay for getting the word out on behalf of SDNHM and ensuring a great SDAG turnout.
Rocks with Provenance Needed for a Reference Collection for Typing and Sourcing San Diego Co. Artifacts

The San Diego Archaeological Center and local archaeologists need a county-wide reference collection of local rocks from outcrops. The collection will be an important resource for archaeologists involved in typing and sourcing stone artifacts from the San Diego area.

Norrie Robbins, adjunct faculty in the Dept. of Geological Sciences at SDSU, is spearheading this volunteer effort. She notes that geologists use a much wider variety of descriptors for rocks than do archaeologists. One of the objectives of this project is to cross-reference archaeological categories with geological ones to help develop a mutually understandable terminology and to improve sourcing. Rock specimens in the reference collection will be identified by spatial coordinates and both geological and archaeological descriptors.

Please contact Norrie (nrobbins@geology.sdsu.edu, 619-303-9095) with any questions and to arrange pick up of specimens. Specimens may also be placed in her mailbox at SDSU or dropped off at the Center (please indicate Attention: Rebecca Nathan). In addition, Dr. Robbins or Dr. Tim Gross will be available at most meetings of the San Diego County Archaeological Society (SDCAS) and San Diego Association of Geologists (SDAG) to accept specimens. Building the reference collection is a long-term project. There is no time limit for making your contributions.

John Shelton Exhibit at the SD Natural History Museum—May 11 to November 2, 2008 (Update: Sadly, Mr. Shelton passed away on July 24th, at age 94).

The photography exhibition, a retrospective of Shelton’s work, marks the first time works by the legendary geologist will be exhibited to the public. A geologist filled with a love for music and machines, John Shelton is best known for his pioneering aerial photography. Formerly an associate professor of geology at Pomona College, he has always been
intensely interested in the process of learning. Shelton’s love and knowledge of flying enabled him to reveal geologic features and processes through his aerial photographs of wondrous landscapes. His aerial photographs of North America are especially invaluable today, when diminishing air quality makes some of his shots irreplaceable.

2008 CORPORATE SPONSORS - THANK YOU!!

Corporate sponsors provide a significant portion of SDAG’s operating and scholarship budget. In addition to monthly recognition for your contribution, you are entitled to a free Internet “link” from SDAG’s Website. We also list Corporate Sponsors in our annual SDAG Field Trip Volume. Please consider SDAG sponsorship in 2009!

JOB OPENINGS!

CA ~ Coast ~ Geologist ~ **Independent Energy Company**

Select candidates are being sought for this unique opportunity with an independent energy company. Qualified candidates will possess:

- Bachelors or Masters of Science in Geology.
- 1 to 15 years experience in oil and gas exploration and production.
- Experience with Microsoft Office software.
- Extensive knowledge of current 2D and/or 3D mapping techniques and industry software such as Geographix.

The incumbent will:

- Be responsible for generating exploitation and exploration opportunities by providing geologic/geophysical support to interdisciplinary teams in the development and operation of company owned assets.
• Evaluate data from well logs, cores, well cuttings, and seismic surveys to develop subsurface maps (e.g. structure, formation thickness, net sand, and HCPV) and cross-sections of potential and/or proven productive geologic horizons.
• Analyze and interpret the regional structural and stratigraphic relations, including published regional geologic and offset field studies, for an assigned area providing interpretations that allow the complete evaluation of upside potential.
• Estimate oil and/or gas reserves in proven or prospective fields, recommend development of operated properties and/or joint venture endeavors and consult with Petroleum Engineers concerning drilling and production methods.
• During drilling operations, work closely with onsite mud logger to identify formation tops and presence of potentially productive zones from shows and from these indicators, provide information to allow determination of well TD.
• Coordinate technical projects with Geophysicists, Engineers, Geologic Technicians and other support staff.

The selected candidate will enjoy a comprehensive remuneration/benefits package structured in line with their background and ability to contribute. This is truly an exceptional opportunity for an exceptional professional.

For immediate and confidential consideration, time is of the essence, qualified candidates are encouraged to submit a current resume to:

Larry V. Combs, Esq.
4450 California Ave., #319
Bakersfield, CA 93309-1152
Phone: 661-831-0149

PART-TIME
GEOLOGY/EARTH SCIENCE INSTRUCTORS, PALOMAR COLLEGE

Beginning with the Spring, 2009 semester, the Earth, Space & Aviation Sciences Department at Palomar College will have several openings for part-time instructors in Physical Geology, Historical Geology and Introductory Earth Sciences. Most of the course offerings will be in the evenings or late afternoons or on Fridays.

Applicants should have a Master’s Degree in Geology or a closely related field. Persons who are nearing completion of their Master’s Degrees are also encouraged to apply. We are particularly interested in applicants who are strongly field-oriented and are willing to develop and lead single- and multi-day field trips throughout southern California and the Southwest.

Please forward a letter of interest with a brief description of your background, experience and teaching interests to:

Steve Spear
Geology Program
Department of Earth, Space & Aviation Sciences
Palomar College
1140 W. Mission Road
San Marcos, CA 92069
sspear@palomar.edu
(760) 744-1150, ext. 2513

Layne GeoSciences, a division of Layne Christensen Company, the nation’s largest groundwater resource development contractor, is seeking candidates for a Senior Level Hydrogeologist position. This position will be based in our Fontana, CA facility. Qualified candidates will possess:
• BS/MS in Geology, Hydrogeology, or Engineering Geology with emphasis on groundwater resources
• Minimum 8-10 years of experience in performing hydrogeological studies (e.g., groundwater exploration and/or water resource development, production well installation and design, wellfield design, surface and borehole (geophysics)
• Excellent written and verbal communication skills, good computer skills

The successful candidate will be involved in hydrogeological studies at project locations primarily in the southwestern US. Candidate may have periodic travel requirements and must be a motivated, self-starting individual looking for a challenging, key position in an expanding organization.

Qualified candidates are encouraged to send a resume to: Layne GeoSciences ATTN: Mr. Tony Morgan Manager-West Coast Operations 11001 Etiwanda Avenue Fontana, CA 92337, 909-390-2833 909-390-6097 FAX
Resumes should be submitted by email to tmorgan@laynechristensen.com.
We are a drug-free and smoke-free workplace. EO/E/M/F/D/V.

**URS Corporation**, ranked number one on Engineering News-Record’s list of the Top 500 Design Firms for Seventh consecutive year is a leading provider of planning, design, systems engineering and integration, technology development, program and construction management, and operations and maintenance services to federal, state and local government agencies in the U.S., Fortune 500 corporations worldwide and government clients in Europe and Asia/Pacific. We’re currently looking for a Geologist in our San Diego, CA office.

**URS18093 – Geologist**

Responsibilities: Assist Project Manager in conducting Phase I and Phase II Site Assessments and oversight of remedial programs. Ability to successfully complete the following:

Manage small projects from start to finish with limited supervision, familiar with a variety of invasive drilling/subsurface investigation techniques, log borings in accordance with USCS, install monitoring wells in accordance with DEH guidelines, provide fieldwork oversight of subcontractors, prepare work plans, familiar with laboratory analyses and waste characterization criteria, familiar with human health screening criteria, interpretation of geologic and chemical data for surface water, soil, soil gas and groundwater and to assist with preparation of reports summarizing field procedures and results.

Requirements: Minimum Bachelors Degree with 2+ years of experience in the environmental consulting industry or related business. Good written and verbal communication skills, able to work independently and familiar with local regulatory guidelines (DEH, RWQCB, DTSC). Valid drivers license is required due to some travel to/from sites as needed.

URS Corporation is an Equal Opportunity Employer and strongly supports diversity in our workforce. M/F/V/D. We offer competitive salaries and a comprehensive benefits package. For immediate consideration please submit your resume online at www.urscorp.com and refer to Requisition # URS18093 or send your resume to mike_blackmore@urscorp.com

---

**Tetra Tech EC**, a world leader in environmental engineering and consulting, is seeking an **Entry Level Geologist** in our San Diego, CA office.

The qualified candidate will have a Bachelor of Science degree in Geology, hydrogeology, or related field with 0-3 years experience. Primary responsibility will be to assist senior personnel in the planning and execution of projects. The chosen candidate will learn a variety of field sampling and drilling methods for site investigation and remediation projects and perform the acquisition of samples (soil and groundwater) in the field. Good analytical and writing skills required. Up to 50% of time may be in the field on project sites mostly in the Bay area.

Tetra Tech EC, Inc. is an Equal Opportunity Employer and we value team-oriented workplace and workforce diversity. We invite resumes from all interested parties including women, minorities, veterans and persons with disabilities. Tetra Tech offers their employees a comprehensive compensation package and the opportunity to work on large scale government projects.

Candidates who are interested in joining our dynamic team should submit a resume to Tetra Tech EC at northwest.web@tteci.com. Resumes should include salary requirements. Please visit our website at www.tteci.com or www.tetratech.com to see the array or services that we provide and exciting projects we are currently working on.

**TN & Associates, Inc.** specializes in environmental services, natural resources, infrastructure engineering, and construction services. Our San Diego office is currently looking to fill the following positions:

**Staff Geologist:** Geologist to perform office and field assignments for environmental site assessment and remediation projects. Position will involve soil borings, monitoring well installations, soil and water sampling, historical research investigations, data management, construction documentation and construction QA/QC, and report writing. Ability to

SDAG - 8 Rev., 8/13/08
adapt to both office and field environments a must. OSHA 40-hour training a plus. Periodic travel is required. **Project Geologist:** Geologist with 3 to 7 years experience required in conducting all aspects of field investigations including limited site assessments, multi-task remedial investigations and remedial actions with a strong emphasis in technical writing skills. The ideal candidate will have experience in data analysis and reporting. PG registration and OSHA 40-hour training a plus. Work will entail some fieldwork and travel, mainly within California. Experience with government projects (DOD, USACE, AFCEE, Navy and USEPA) landfills and stormwater engineering/compliance a plus.

We offer a competitive salary, benefits package and friendly working environment. Equal Opportunity Employer. Please mail or fax your resume and letter of interest to: T N & Associates, Inc., 2247 San Diego Avenue, Suite 238, San Diego CA 92110 , fax 619-291-8100.

---

**CDM** is looking for a fulltime **Engineering Geologist** to join its geotechnical division in the West Coast. The successful candidate will be responsible for the following:

- Conduct geologic field investigations on a wide range of public and private projects involving seismic evaluations, landslides, and subsurface soil, rock and water conditions for dams, buildings, water and waste water treatment facilities, transportation projects and remedial actions.
- Perform and supervise geotechnical and geo-environmental analysis, design, and construction engineering services.
- Provide project management for geotechnical and geo-environmental projects including the preparation of scope, schedules and budgets.
- Contribute to business development and proposal efforts and prepare technical reports.
- **Requirements:** Demonstrate the ability to perform quality-engineering geology services while adhering to project scope, budget, and schedule.
- Must have at least 10 years experience in geological engineering.
- M.S. in engineering geology or related discipline required
- Must be a CA Certified Engineering Geologist (CEG)
- Major project experience involving seismic and fault investigation is a must.
- OSHA 40-hour HAZWOPER training desirable.
- Excellent written and verbal communication skills required.

CDM has consistently earned industry recognition for our innovative project solutions. Recognition by respected professional organizations, such as the American Academy of Environmental Engineers, the American Council of Engineering Companies, and the Design-Build Institute of America, is a testament to CDM’s delivery of exceptional service and the right total solutions for each client's needs. We are an equal opportunity employer. Qualified candidates can send resumés to mcshefferyj@cdm.com.

**Principal Hydrogeologist**
Looking to make a real impact at work? Ready to “Never be bored”? Natural born leader? Work for an industry leader.......Join MACTEC.

**MACTEC Engineering and Consulting, Inc.** is a leading consulting firm providing engineering, environmental and remedial construction services to public and private clients worldwide. Operating with over 3,000 employees in 100 offices nationwide with a global reach, MACTEC is currently ranked 31st among *Engineering News-Record*’s top 500 design firms.

**MACTEC’s** Irvine office is in search of a **Principal Hydrogeologist** to lead the geological and hydrogeological efforts, manage a team of committed technical staff members and advance business development opportunities within a variety of clients and projects. This is an excellent opportunity for the “natural born leader” who wants to utilize their technical and leadership skills!

**Scope of Role:**
1. Provides hydrogeological guidance and support for soil and groundwater remediation.
2. Develops and presents new approaches and services within environmental consulting market
3. Assumes project management roles and leads site investigation efforts
4. Conducts fate and transport modeling, pump tests and capture zone analysis
5. Develops site specific hydrogeological model.
6. Preparers and deliver technical reports, communications and presentations.

**Key Qualifications:**
1. BS/MS/PhD (Geology/Hydrogeology)
2. Min 10 years experience, must have consulting experience as well
3. Must have groundwater modeling experience, CA certification preferred
4. PG, CHG registration in CA required
5. Excellent communication and leadership skills

MACTEC’s benefit offerings include health, dental, vision, short and long term disability, life insurance, paid vacation, sick, holidays, a 401(k) match and tuition reimbursement. More information can be found on our website at [www.MACTEC.com](http://www.MACTEC.com)
Interested?
Please apply today via our website: www.MACTEC.com/ - click on Careers / CA- Irvine

**Hargis + Associates, Inc.**, a San Diego based consulting firm specializing in **hydrogeology and engineering**, and **SDAG Corporate Sponsor** currently has opportunities in our San Diego, California office. We are currently looking to fill the following positions:

**CAD Technician:** Ideal candidate is a highly qualified professional for preparation of engineering and geologic graphics. Position requires experience in **AutoCAD** and with engineering process design. Experience with **Civil 3D, Land Development Desktop, AutoPlant**, and Arcview a plus.

**Staff Engineer:** Candidate would have a B.S. Degree in Chemical, Civil, or Mechanical Engineering and 3 to 5 years relevant experience including design, operation, and maintenance of remediation systems. Masters degree and registration is a plus. Candidate should possess strong writing and presentation skills. Position will be based in San Diego, California, and will require some travel and field work. Valid driver's license and U.S. Citizenship required. OSHA 40-hour training preferred, but not mandatory.

**Hydrogeologist:** Candidate would have a B.S. Degree in Geology and M. S. Degree would be a plus. Entry level position, with work including soil and groundwater sampling, well installation, aquifer test analysis, and report preparation. Candidate should possess strong writing and presentation skills. Candidate with Hydrogeology coursework or GIS background is a positive. Position will be based in San Diego, and will require travel and field work. Only entry level candidates will be considered. Valid driver's license and U.S. Citizenship required. OSHA 40-hour training preferred, but not mandatory.

**Staff Hydrogeologist:** Position requires minimum a B.S. Degree in Geology, and 3 to 5 years relevant experience, including experience with soils and groundwater sampling, well installation, work plan and report preparation, task management, cost estimating and scheduling. Candidate should possess strong organizational, writing and presentation skills. California Professional Geologist (PG), or ability to obtain within two years, groundwater modeling experience, and Masters degree is a plus. Position will be based in San Diego, and will require some travel and field work. Valid driver's license and U.S. Citizenship required. OSHA 40-hour training required.

No phone calls please. Qualified candidates should send resumes, along with a cover letter summarizing experience and salary requirements to:

Hargis + Associates, Inc.
Attention: Jennifer Layton
2365 Northside Drive, Suite C-100
San Diego, CA  92108

The San Diego Natural History Museum is run and operated by the San Diego Society of Natural History, a private non-profit scientific organization incorporated in 1874. The Museum’s mission is to interpret the natural world through research, education and exhibits; to promote understanding of the evolution and diversity of Southern California and the peninsula of Baja California; and to inspire in all a respect for nature and the environment.

Within the Museum, the Department of PaleoServices (DPS) specializes in paleontological resource management. Our focus is on the recognition, recovery, and preservation of the significant and unique paleontological resources that occur in this region. The activities of DPS are helping to preserve significant fossil assemblages and are directly contributing to the growth of the important paleontological research collections at the Museum. We are currently looking to fill the following position:

**Paleontological Field Manager:** Position responsibilities include coordination of paleontological field activities (i.e., supervision of field monitors in prospecting for and collection of fossils and the recording of stratigraphic, taphonomic, geographic, and topographic data) and production of final project reports that summarize the methods and preliminary results of paleontological salvage activities. Other duties include generation of initial discovery letter reports for City, County, and/or State agency managers and generation of paleontological resource assessment technical reports. Opportunities also include paleontological field work in the Southern California region and working with the extensive fossil collections of the San Diego Natural History Museum.

Qualified candidates must have at least a B.S. Degree in Geology or Paleobiology; 2 to 3 years of relevant experience (especially sedimentary geology and paleontology); excellent supervisory/managerial, verbal, written, and interpersonal skills; and a strong work ethic, intense drive, and initiative for quality and customer service. This position is a regular, full-time salaried position with a generous benefits package (e.g., full medical and 401K plan). Compensation will be based on individual qualifications and experience (annual salary range $40,000 to $60,000).

NOTE THE FOLLOWING JOB ANNOUNCEMENT FROM ADECCO, inc. in Carlsbad:

SDAG - 11  Rev., 8/13/08
DIAMOND GRADER - WW Train!

Build a unique career in an expanding laboratory. Work with diamonds, microscopes and computers in a laboratory producing environment that emphasizes quality and precision.

Do you like detailed work that emphasizes quality and precision? Do you grow new information quickly? Would you like to establish your work and job training and begin a career grading diamonds? if you answered yes, you should consider an entry level career in Gemology.

Our client is expanding its laboratory staff to meet the growing needs of the industry. They are a nonprofit institute dedicated to gem and jewelry research and learning.

Job Title: Diamond Grader
Starting Pay: $12.00 per hour
Location: Carlsbad, CA
**Relocation package is available***

POSITION SUMMARY: Full time entry level position to perform the identification and quality analysis of diamonds using a standardized system.

CANDIDATES SHOULD POSSESS
- Working Attention to Detail
- Basic Computer Skills (Windows)
- Ability to Sit for Long Periods of Time—Ability to Use a Microscope
- Ability to Cope with New Information Quickly
- Good Decision Making Skills
- Desire to Continuously learn New Information
- Ability to Accept Constructive Criticism

BENEFITS INCLUDE
- Comprehensive Medical, Dental & Vision
- Paid On The Job Training
- 401(k) and Pension Plan
- Employee Referral Program
- Vacation & Holiday Pay
- Continuing Education - Life Insurance and more!

HOW TO APPLY
Please send your resume to Beatrice.keeser@adeccco.com
