RESERVATIONS REQUIRED! By noon, Friday, February 2. Please phone in your reservation ASAP to the receptionist at Leighton and Associates, (619) 292-8030. A reservation made is a reservation paid! If you need to cancel your reservation, please call Leighton and Associates.

SUMMARY: Dr. Frost received his PhD from the University of Southern California and is currently Associate Professor of Geology at San Diego State University. Editor's Comment: Eric is a real busy dude and did not provide a summary of his talk but we'll guess what he may jabber about....**GOLD (\$\$\$)**, detachment faults, and the **BIG** picture! He's been lucky (?) enough (with CALCRUST) to acquire crustal seismic profiling data for the area extending from the Salton trough to the Whipple Mountains (near Lake Havasu). Hopefully, he'll update us on his latest studies and their success (failure?) in gold hunting in southeastern California. Come see - - Monday, February 5!

Directions:

I-5 north to Ortega Highway exit,
turn left towards the Mission,
then left on Camino Capistrano,
restaurant will be on your right
between Del Obispo and Verdugo Streets
